

# G-LITE

## Self Contained Lighting SOLAR LED LIGHTING

### DESCRIPTION

GEOVISION optically driven G-LITE is an "Off Grid" self contained overhead lighting solution that requires no electricity. Designed and built to function 36 hours with 100% illumination or up to 7 days with our new electronic luminous light energy saver without sunlight! Best of all it can be placed anywhere for automatic night illumination. The G-LITE architectural design is modern and available in two light patterns. Roadway / Walk way with elliptical illumination and square area illumination for parking lots.

### ALTERNATIVE ENERGY SOLUTION

GEOVISION Optic Aiming provides more luminous flux by using state of the art LED's that burn brighter with less energy. Smooth light pattern and 63000 K. is

### G-LITE SOLUTION

The G-LITE Series Lamps are built with 18 LED's and offers 25 Watt solar light or 110V electrical powered. Both models available with Road Optics or flood beam. G-LITES are "Out of Box ready" Simply mount on a pole aim and go. Guaranteed 5 years

Part	Description	Dimensions	
GLITE-18SE	Solar powered light with elliptical pattern 63000k	15" x 7.28" x 9.8"	389 x 185 x 249 mm
GLITE-18SF	Solar powered light with flood pattern 63000k	15" x 7.28" x 9.8"	389 x 185 x 249 mm
GLITE-18EE	Electric 110V powered light elliptical optics 63000k	15" x 7.28" x 9.8"	389 x 185 x 249 mm
GLITE-18EF	Electric 110V powered light flood optics 63000k	15" x 7.28" x 9.8"	389 x 185 x 249 mm
GLITE-B320	Short arm support bracket for G-LITE	7.5" x 11"	280 x 192 mm
GLITE-B320	Medium arm support bracket for G-LITE	14.5" x 15"	380 x 372 mm
GLITE-B320	Long arm support bracket for G-LITE	20.5" x 17"	430 x 521 mm

# G-LIGHT

Solar LED Lighting

**Bright**

**Portable**

**100% Self Contained**

## **G-LIGHT**

Designed for border patrol and lighting in remote locations, the G-light requires no electricity.

G-Light will turn on automatically and shut off when the sun rises.

Glass lens protects steel body lighting housing.

All parts are concealed in protection box that eliminates sand and contaminants from entering protecting the electronics from desert conditions.

## **G-LIGHT POWER**

Powered by 35 watt , 45 watt 55 , 95 110 watt

## G-LIGHT

A Revolutionary step in modern lighting. Discover G-Light, a self contained LED light for temporary permanent or portable applications. Designed to illuminate for 36 hours with only a 6.5 hour charge time

Designed to be placed on a pole or wall. Ready to use out of the box.

Solar panel can be relocated on separate location for inconspicuous applications

## G-LIGHT

### 2 Light Patterns

- Elliptical for roadways and walkways
- Flood for parking areas

### Rechargeable

- Delivered with independent charger for pre-charging for emergency lighting or event usage

### Bright

- New age optics deliver exceptional light patterns reaching almost 60 feet (19 meters) for pathway and roadway lighting on only 25 watts!

### Compact and powerful

- G-Light advanced optics stretches light rays allowing you to reduce the amount of lights required

### Saving money

- 100 % self sufficient Off Grid technology
