## PHALANX G66 Barricades

PHALANX G66 Stackable barricades  
Compact easy deployable traffic control

### G66 STACKABLE BARRIERS

- More effective, more safe and more stable than drums, posts, cones, A-frames and other barricades.
- Visually more substantial and commands respect.
- Low center of gravity. Water or sand ballast can be added to anchor barricades in place.
- Unique stacking feature saves up to 80% in transportation, storage and handling costs.
- Lightweight, rugged, UV stable polyethylene. Each unit weighs 55 lbs. (25 Kgs)
- Overall dimensions: 71" long, 38" high, 30" wide (1.8m x 0.96m x 0.76m)

**LOOKS** like a Solid Barrier  
**HANDLES** like a Portable Barricade

**Link system**

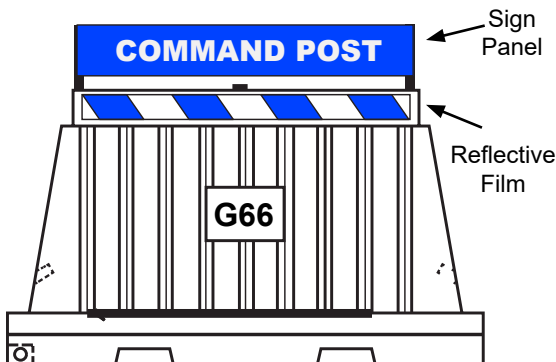

**Water Ballast**

**Stack and transport**

**Channelize and direct traffic**

### G66 Portable Barricade

G66 is practical for any safety and emergency deployment. Compact stackable barriers are easily deployed and managed by 1 or 2 people. Easily transport 100 linear meters with a 1 ton truck.

Equipped with reflective military cross hatch bands provides advance visibility and warning to approaching motorists. Optional sign panel for directing and coordinating troops, pedestrians and vehicles.
